

OEM / ODM

Kare Medical can supply you with OEM or ODM products.. We shape our products according to your needs. From the very first concept and design of a product, to research and development, to the final stage of manufacturing, Kare Medical supports the operation. And it doesn't end there; the exchange of ideas, the technical support and the open communication that exists between Kare Medical and our customers throughout the design and manufacturing process continue even after all the products have been packed and shipped. Kare Medical provides its customers with a total support package, and uses its know-how in their OEM/ODM orders also.

In a mutual cooperation with Kare Medical, whether it's an OEM/ODM order or a Hikoneb product, you get bulletproof products, endless support and continuous evaluation of quality and craftsmanship.

For all your OEM/ODM inquiries, please contact Mr. Fatih Yavas .
